

K-12 School District

About the customer...

For licensing reasons, CIM will not use the school district name or logo for public promotion. To learn more, please visit: www.sacs.k12.in.us.

Solutions Integrated...

Campus-Wide Video Over IP.

Video Over IP (VIP) allows for much more flexibility compared to RF video distribution. This IP based video distribution system allows for communication that was not possible with older analog systems. It provides the ability to send any broadcast throughout an entire district to any computer location.
